Short profile of the Organisation:

ABG has gained a hands-on expertise over 36 years about the career development and recruitment of PhDs, whatever their field and whatever their seniority. It has developed many workshops and services for both researchers and employers, on a national level in France.

The main objective of the ABG workshops for researchers is to help them steer their career by giving them tools and tips they can use at all their career stages. Its audience ranges from Master's students to doctoral candidates and doctorate holders to supervisors, from all scientific fields. In 2015, we reached 2.975 participants over 100 days of training (FTE).

For academic and industrial recruiters, ABG offers a jobboard dedicated to the recruitment of doctoral candidates and doctorate holders. They have also an access to the CV-database. Additional services to support the recruitment of PhDs, such as the search for an expertise or the pre-selection of candidates, can be offered.

Since March 2008, a Franco-German branch office has been created to focus on researcher's mobility between France and Germany and more largely on the European level.

Since 2017, ABG is Career Development Center within the Euraxess network.
