

## ASSOCIATES

### European Technology Platform for Water (WssTP)

Avenue Edmond van Nieuwenhuysse 6,  
1160, Brussels, Belgium

Contact person: Mr. Durk Krol

Tel: +32 2 7927 551

E-mail: durk.krol@wsstp.eu

### European Business Group India

901 & 902, Prestige Meridian II Towers,  
No. 30 M.G. Road, Bangalore, 560001, India

Contact person: Ms. Anandi Iyer

Tel: +91 80 4166 5548

Fax: +91 80 4090 4724

E-mail: bangalore@ebgindia.com

### Ministry of Environment, Forest and Climate Change of India

Paryavaran Bhawan, CGO Complex,  
Lodi Road, New Delhi, 110003, India

Contact person: Mr. Ashok Lavasa

Tel/Fax: +91 11 2436 0721

E-mail: secy-moef@nic.in

## COORDINATOR

### Consiglio Nazionale delle Ricerche (CNR)

Via Salaria Km 29.300, Area Ricerca Roma 1  
00015 Monterotondo, Rome, Italy

Project manager: Dr. Massimo Spadoni

Tel: +39 06 9067 2741

Fax: +39 06 9067 2733

E-mail: massimo.spadoni@igag.cnr.it

www.cnr.it

## PARTNER

### National Environmental Engineering Institute (NEERI) of the Indian Council of Scientific & Industrial Research (CSIR)

Nehru Marg, Nagpur, 440020, India

Project officer: Dr. Paras Pujari

Tel: +91 712 2249 756

Fax: +91 712 2249 756

E-mail: pr\_pujari@neeri.res.in

## EU-India Research and Innovation Partnership

# TECO

## Technological Eco-Innovations for the Quality Control and the Decontamination of Polluted Waters and Soils

# TECO

The impact of industrial development on the environment has been often severe and many times dramatically destructive.

Today the most advanced technologies based on a better understanding of natural processes and the discovery of new materials and analytical techniques can help to recover critical situations linked to the overexploitation of natural resources.

TECO is a EU-funded project dedicated to the implementation of EU-India exchange of experts and innovators in the field of technological eco-innovation applied to the pollution of soils and waters and to the improvement of their quality.

## TECO STRATEGY

**Teco gives you the opportunity to share experiences and start-up collaborations in India by helping you to implement people exchange programmes between research centres, private industries, SMEs and public institutions.**

**Activities have to be finalized to the opening of new professional collaborations and to the implementation of thematic networks in the field of water and soil quality.**

**Exchanges are financially supported by providing monthly grants.**

## Outcomes

**Networking, information sharing and partnerships among target groups and stakeholders**

**Mobility and collaborations among EU and India**

**EU-India joint research and involvement of private sector**

**Improvement of public-private dialogue**

## Activities

**Networking management and web coordination; match-making of requests and opportunities; organization of conferences in EU and India**

**Accurate selection of participants and projects and activation of mobility programmes**

**Expert monitoring of ongoing joint researches and mobility programmes**

**Addressing of obstacles and challenges; review and organisation of consultations with all stakeholders**

The project aims to:

- boost collaborations between EU and India in the field of environment and, specifically, on the technological innovations for the decontamination of polluted waters and soils;
- stimulate new opportunities for the private sector to deliver appropriate innovations which are able to provide solutions for local contexts even through a reinforced link between research and public institutions.

A wider network of people is also involved in the activities through workshops and conferences.

## TECO NETWORK

**The network is open to all the target groups (public or private).**

**You can join just sending us an e-mail.**

## TECO EXCHANGE

**People exchange programme is dedicated to researchers, engineers, innovation managers and entrepreneurs.**

**Project proposals will be selected according to their relevance and adherence to the goal of TECO by a scientific committee.**
